Meeting Transcription

Speaker 1: We have to take the interview of a professional person who has the same domain as us.

Speaker 2: So can you please introduce yourself?

Speaker 1: Hello everyone, my name is Rohan Bari.

Speaker 2: I am working as a software engineer here in Pune.

Speaker 1: My company name is Kulleda Solutions which is located here in Pune near Airport area.

Speaker 2: And I am working in RIA as well as in the old domain.

Speaker 1: How is your day in your day-to-day life?

Speaker 2: I usually work around 8-9 hours in my office which includes the usual feature development,

Speaker 1: interacting with my client as well as my colleagues, some work fixes and some regular discussion

Speaker 2: to solve a specific problem in development process.

Speaker 1: Is it typical to others in this world?

Speaker 2: Yes, most of your developers do the same thing in a different way usually on the basis of their text tag

Speaker 1: but most of the things are similar.

Speaker 2: And that's all with how do you stay in your current knowledge?

Speaker 1: Current knowledge?

Speaker 2: Current knowledge, I usually read for blogs and when I learn something new I will rebuild something using that.

Speaker 1: Let's say for example if I know Java and I try to learn something in JavaScript,

Speaker 2: I will rebuild old stuff or try to build something new using JavaScript or your framework you can set.

Speaker 1: So it will help me to improve my technical understanding about the concept or you can say programming language.
